Fonte: catálogo eletrônico Amayama (EPC Mitsubishi), páginas salvas na pasta “Catálogo Peças” em 25/09/2026. Compilado por VCP Consultoria e Perícia para consulta técnica.

Como usar esta base

Cada seção corresponde a um grupo do catálogo do fabricante e traz o(s) **diagrama(s) explodido(s)** seguido(s) da **tabela de peças**. Os números impressos no diagrama (ex.: **11092**) são a **referência PNC** e aparecem na primeira coluna da tabela, ligando cada item do desenho ao seu número OEM.

Colunas da tabela: Ref. (PNC do diagrama) · Descrição (nomenclatura original do fabricante, em inglês) · Nº OEM (código Mitsubishi) · Detalhes (medidas, cor, observações) · Período (faixa de produção aplicável, aaaa.mm) · Qtd (quantidade por veículo) · USD ref. (preço de referência).

Supersessão: linhas marcadas “» … Substituto” indicam o número OEM que substitui o código original (peça de reposição atual).

Localizar rapidamente: use o sumário (clicável), os marcadores do PDF, a busca de texto (Ctrl+F) por número OEM ou nome da peça, ou o **Índice de números OEM** ao final, que remete à seção e página de cada código.

Preços: valores em dólar (USD) exibidos pela Amayama na data da captura; servem apenas como referência de ordem de grandeza, não como cotação.

Aplicação: todas as páginas referem-se ao Lancer CY4A, GT (2WD), câmbio manual 5 marchas, mercado Brasil, grade SNXHL1FB, opção 2000 (Sedan). Confira sempre o período de produção e as observações de cada linha em relação ao veículo analisado (nº de chassi/VIN).
